LOOKS DO MATTER!

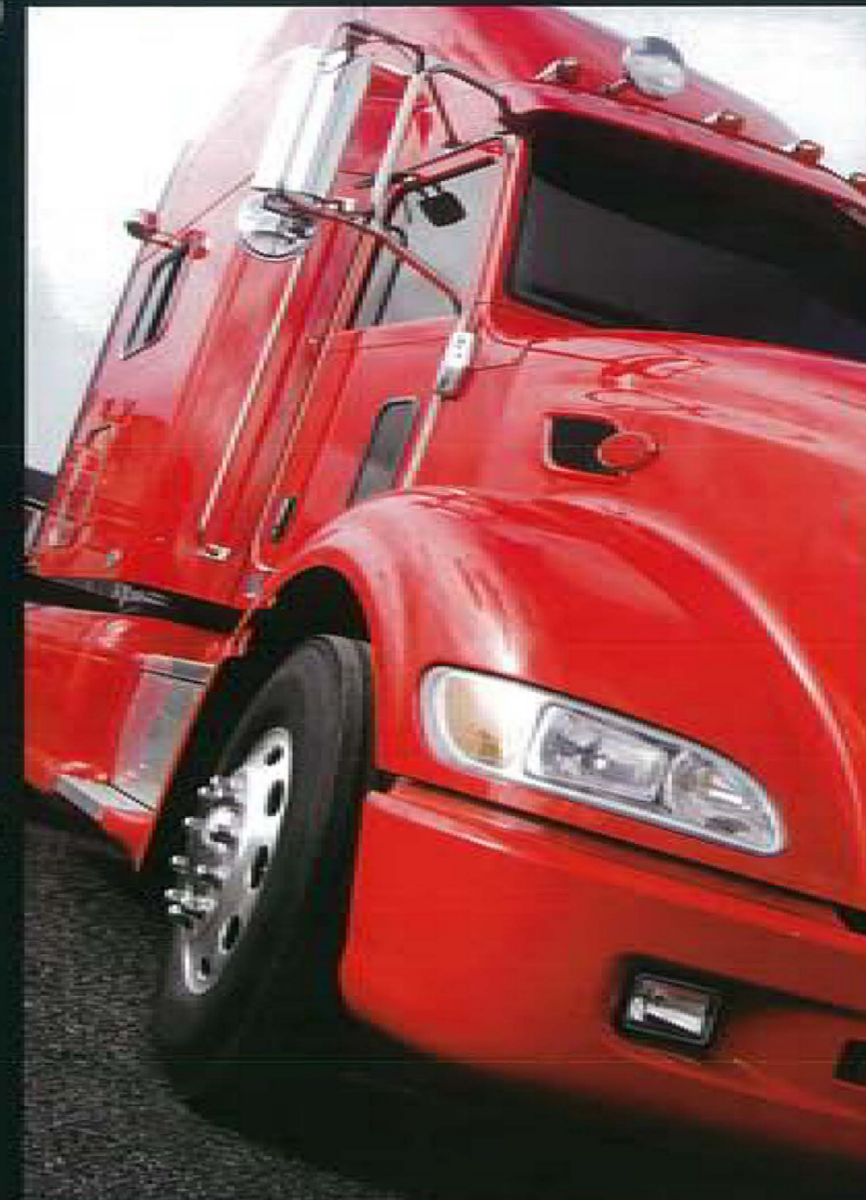

We know that the look of your fleet vehicles is important to you. To guarantee that you receive a long-lasting paint finish, we use only the highest quality raw materials.

Our product lines are commonly used on a wide-variety of service vehicles. Industries such as; Transportation, Petroleum, Construction, Utility services, and OEMs depend on our reliable products to protect their investments. We offer diverse series of primers and polyurethane top coats to protect any type of vehicle.

As a leader in developing innovative coatings, we are dedicated to providing solutions that are custom-tailored for your unique business needs. We value your business which is why our commitment is understanding your specific and defined requirements.

The Polyur[®] product line offers superior resistance and achieves outstanding performance in aggressive corrosive and abrasive environments. As a customer, you will be able to choose from our library of solid to metallic colors. Our product will assure tough, long-lasting durability with excellent gloss and color retention.
