Who We Are

Powered by Source-Link Ghana Limited Company to undertake the business development, marketing, and distribution of Nofire, and Polyval products in Africa, Industrial Coatings and Services Africa (alias Industrial Coatings Africa) is a leading provider of high-quality industrial coatings, Oil & Gas Refinery Process and water Treatment Chemicals for the engineering sector in Africa.

Our mission is to empower industries and engineers with refinery process & treatment chemicals and innovative industrial coating solutions that enhance the performance, durability, longevity, and sustainability of projects across various industries and operations in Petroleum, Mining, Oil & Gas, Construction, Water Treatment, Aviation, Manufacturing, Agriculture, Transportation, Telecommunications, Power generation & distribution, Data Warehousing, Chemical Processing, etc.

At Industrial Coatings Africa, we understand the critical role engineering plays in driving progress and development and this is why we are dedicated to supporting industries and engineers with comprehensive industrial coatings and refinery process & treatment chemicals that are specifically designed to meet the unique challenges and demands of their projects.

Our extensive portfolio include Industrial Maintenance & Protective coatings: corrosion-resistant coatings, chemical resistant coatings, abrasion resistant coatings, anti-slip coatings, anti-fouling coatings, fire-retardant intumescent coatings, heat-resistant coatings, powder coatings, floor, roof, and waterproof (hydro insulation) coatings etc.

These coatings are formulated to withstand extreme environmental conditions, heavy-duty usage, and the rigors of industrial operations, providing unparalleled protection to critical infrastructure and equipment. High quality Refinery Process and (water) Treatment Chemicals such as corrosion inhibitors, PH adjustors, catalysts, anti-fouling agents, flocculants & coagulants, scale inhibitors, biocides & disinfectants, chelating agents etc. compliments our portfolio.

We take pride in our commitment to quality, innovation, and sustainability as our products are meticulously engineered using advanced formulations and cutting-edge technologies to deliver exceptional performance and longevity. Whether it's safeguarding industrial equipment i.e. Mining equipment from corrosion, protecting Oil & Gas equipment and pipelines from harsh elements, improving the durability of structural steel in construction projects, protecting data warehouses against fire, and or enhancing water treatment or Oil & Gas refinery process, our products are tailored to deliver superior results.

Our dedication to sustainability is reflected in our eco-friendly coatings that minimize environmental impact without compromising on performance. We believe engineering excellence should go hand in hand with environmental responsibility, and our coatings and process chemicals exemplify this harmonious balance.

We are more than just providers of industrial coatings - we are a strategic partner to manufacturers, industry experts, and engineers, offering technical expertise, customized solutions, and unparalleled support throughout every stage of our client's projects. Our team of industry experts is committed to collaborating with industries and engineers to understand the specific requirements of our clients and provide them with tailored recommendations and services that optimize performance and efficiency.

In addition to our product offerings, we also provide comprehensive training services, technical resources and quality control services, and on-site operations support services to ensure industries and engineers have the knowledge and confidence to apply our coatings and chemicals effectively. We believe that empowering engineers and the industries we serve with the right skills and insights is vital to achieving exceptional results, business sustainability, long-term durability of equipment and installations and maximized profits.

As we look to the future, Source-Link Ghana Limited Company (Industrial Coatings Africa) remains at the forefront of innovation; continuously collaborating with our manufacturing partners in researching and developing new coatings that redefine industry standards and set new benchmarks for performance and sustainability. We are driven by a relentless pursuit of excellence and a passion for supporting engineering endeavors that shape the world around us.

Industrial Coatings Africa is dedicated to empowering industries and engineers with the most advanced, reliable, and sustainable industrial coatings and process chemicals that elevate the standards of engineering excellence. We are committed to being the trusted partner that industries can rely on to overcome their challenges, enhance performance, and build a better and more resilient future and operations.

Message From The CEO

At Industrial Coatings Africa, innovation is the key to our superior industrial maintenance products and the ever-widening range of applications. We work with a clear mission to place all our coating expertise, experience, and professionalism at your disposal, ensuring our product work for you. Whatever your project, we offer the best solutions for each stage of its development, providing you with a vast range of over 800 different high quality industrial maintenance coatings products for Fire Protection, Corrosion Prevention and Protection, Chemical and Abrasion Protection, Waterproofing, and Flooring Solutions, and the expertise for all industries.

We support our customers' commitment to the environment with industrial coating products that meets or exceed industry VOC standards. Our NoFire & Polyflex (Polyval) products exceed industry VOC standards and we maintain our commitment to the use of environmentally friendly materials throughout all of our processes.

Our full line of high-performance industrial maintenance coatings includes Fire-Retardant Coatings, Chemical & Abrasion Resistant Coatings, Rust and Corrosion Resistant Coatings, and Waterproofing Coatings that come in the form of Alkyds, Epoxies, Urethanes, Polyurea membranes, and linings, Moisture cure Urethane Protective Coatings, Primers, and Urethane Binders.

We offer the highest technological solution to industry challenges as well as enhanced aesthetic finishes. Our products provide outstanding durability and extended service life to protect your investment for many years to come!

We partner with NoFire Technologies Inc. USA and Polyval Coatings Inc. Canada to bring you "Tomorrow's Technology coatings> Today".

**Ing. Daniel Allotey, MIET, IAMSP
C.E.O, Industrial Coatings Africa**

MISSION

Industrial Coatings Africa's mission is to provide high-quality coating solutions that meet the unique needs of industrial clients across the continent.

We are committed to delivering exceptional products and services that exceed industry standards while prioritizing environmental sustainability and safety.

Our goal is to be the leading provider of innovative coating technologies, contributing to the success and longevity of our customers' assets.

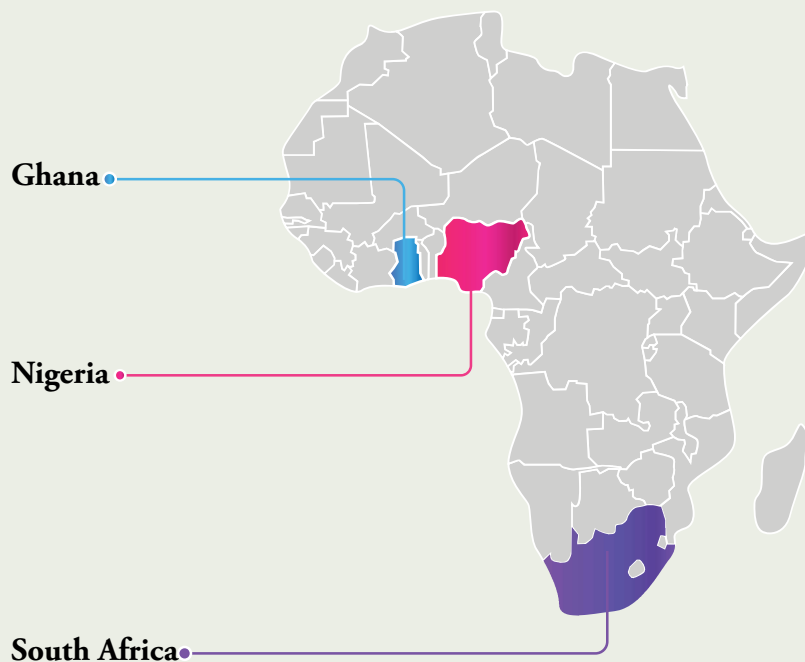

Through continuous research, development, and collaboration with industry partners, we aim to set new benchmarks for excellence in industrial coatings within Africa.

VISION

Our vision is to be the leading provider of high-quality industrial coatings solutions in the region. We are committed to delivering innovative and sustainable coating products that exceed customer expectations while contributing to environmental sustainability.

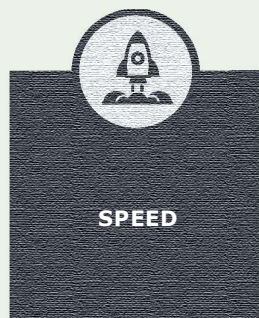

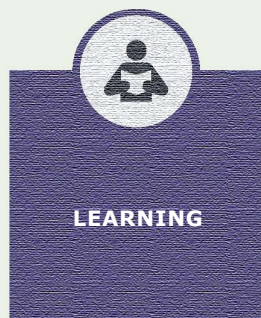

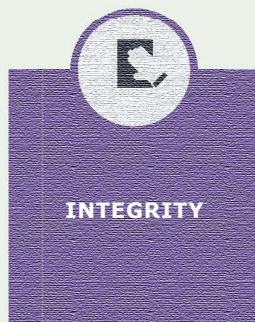

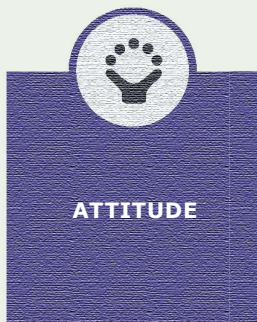

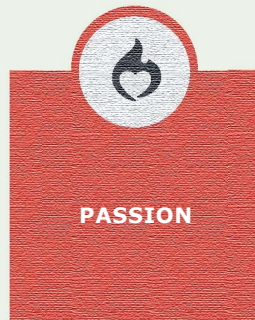

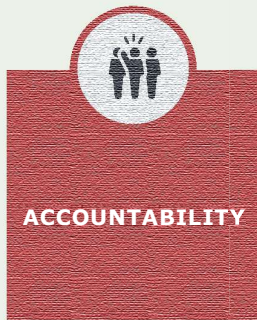

We aspire to build long-term partnerships with our customers based on trust, reliability, and mutual success. Through collaboration with industry stakeholders and leveraging our expertise, we seek to drive positive change within the industrial coatings sector across Africa.

INDUSTRIAL MAINTENANCE & PROTECTIVE COATINGS

Industries We Serve:

- ✓ Oil and Gas
 - ✓ Mining
 - ✓ Offshore
 - ✓ Manufacturing
 - ✓ Aviation
 - ✓ Construction
 - ✓ Water Treatment
 - ✓ Transportation
 - ✓ Agriculture
 - ✓ Telecommunication
 - ✓ Energy
- Anti-Corrosion Coatings
 - Chemical Resistant Coatings
 - Abrasion Resistant Coatings
 - Industrial Floor Coatings
 - Waterproof Coatings
 - Polyurea & Polyurethane Membranes and Linings
 - High-Build, Mastic and Coal Tar Epoxies
 - Alkyds, Urethanes, DTM and more
 - Moisture-Cure Urethane Coatings

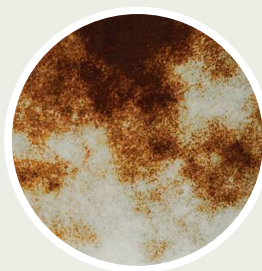

MINING, REFINERY & WATER TREATMENT PROCESS CHEMICALS

Industries We Serve:

- ✔ Oil and Gas
 - ✔ Mining
 - ✔ Petroleum
 - ✔ Water Treatment
- Corrosion Inhibitors
 - PH Adjusters
 - Catalysts
 - Anti-Fouling Agents
 - Flocculants & Coagulants
 - Scale Inhibitors
 - Biocides & Disinfectants
 - Chelating Agents

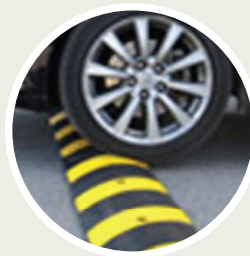

URETHANE BINDERS, RUBBER & SPECIALTY PRODUCTS

Industries We Serve:

- ✓ Construction
- ✓ Transportation
- ✓ Textiles
- ✓ Architecture
- Safety Playgrounds
- Synthetic Surfaces
- Running Tracks
- Sport Facilities
- Parking Blocks
- Dock Bumpers
- Speed Bumps
- Sound Proof Barriers
- Window & Door Sills
- Park & Garden Covering

INTUMESCENT FIRE-PROTECTIVE COATINGS

Industries We Serve:

- ✔ Oil & Gas
- ✔ Mining
- ✔ Offshore Installations
- ✔ Manufacturing
- ✔ Aviation
- ✔ Construction
- ✔ Telecommunication
- ✔ Transportation
- Data Centers Protections
- Server Rooms
- Utility Poles Protection
- Power Rooms
- Offices
- Electric Cables
- Generator Room
- Power Plants
- Ware Houses
- Industrial Buildings
